PERSONAL PROFILE

I am a freshgraduate of the Informatics and Computer Engineering Education program at Makassar State University with a strong interest in modern web development and the use of technology to create innovative solutions. I am accustomed to collaborating with AI to support productivity, idea development, and the resolution of various technical challenges. I have a strong interest in integrating technology to enhance productivity and the digital learning experience.

EXPERIENCE

Freelance Front-End Web Development

Jalcode.id | July 2026

- Develop a user interface for a web-based tourist ticket booking system to support the online ticket booking process.
- Collaborate as part of a team as a Frontend Developer by integrating frontend and backend code via Git/GitHub.
- Manage code changes through the commit, push, merge, and pull processes to keep application development in sync.

Core Team Educational Development

Google Developer Group on Campus Universitas Negeri Makassar | October 2024 – August 2025

- Teach and train community members on front-end web development.
- Create and document tutorials on front-end web development.
- Served as a speaker at several collaborative events organized by GDGoC UNM.

Independent Internship

Telkom Witel Sulbagsel | February 2024 – June 2024

- Developing flowchart designs and web interface designs for a field data reporting system.
- Develop a web-based field data reporting system in accordance with requirements and the mentor's instructions.

Teaching Assistance at Educational Institutions

SMK Negeri 10 Makassar | Agustus 2023 – Desember 2023

- Served as a teaching assistant for the Web Design course and taught material on HTML, CSS, and JavaScript.
- Develop a school website as a public information platform that includes the school profile, announcements, teacher information, and alumni information.
- Develop a barcode-based tree information system that provides tree names in Indonesian and Makassar, as well as explanations of their scientific names.
